The 83rd Annual Tolland County 4-H Fair Proudly Dedicates the 2025 Fair Premium Book to:

The Duval Family

The Tolland County 4-H Fairboard is proud to dedicate the 2024–2025 Fairbook to the Duval Family: Jason, Denise, and Julia (also known as JuJu). This extraordinary family has brought light, happiness, and an incredible work ethic to the fair year after year. Jason has led our Grounds and Safety committee for the past three years, but his dedication goes back even further, always lending a hand during fair set-up and clean-up, patiently listening to the Fair Director's ideas, and offering help wherever needed. His calm and reliable presence is a cornerstone of our fair's success. Denise has led the Activities Building with enthusiasm and grace. Long before becoming an Advisor, she was always among the first to step in and offer support during fair season. Her kindness, willingness to help, and positive attitude have left a lasting impact on everyone she meets. JuJu is a lifelong 4-Her whose passion and leadership shine in everything she does. From her many project areas to her role as Vice President of Livestock and now Vice President of Grounds and Safety, she is a guiding light to younger members and a supportive friend to all. Her dedication, inclusivity, and positivity make the fair a better place. The Duval Family exemplifies what 4-H stands for. Their commitment, passion, and resilience have helped shape the Tolland County 4-H Fair into what it is today. It is with deep appreciation that we dedicate this year's fairbook to them.

2025 President's Message

Growing will never stop. Learning is how you grow. Change is how you learn. Throughout my 11 years in 4-H, I have seen the 4-Hers in Tolland County grow, learn, and change. The past five years have been difficult on our fair and 4-H community because we have been forced to adapt to circumstances such as the pandemic and the Avian Influenza outbreak. From going to an online fair to having to show stuffed chickens, we have learned to adapt to change. Now, working alongside my fellow 4-Hers who have been through these tough times is one of my favorite things. We have all come out on the other side changed in the best way. We have brought Tolland County 4-H to a new level. I am so incredibly proud to see the growth and change we have made. I want to thank everyone in 4-H and their parents for their hard work, time, and dedication. Without you all, we wouldn't be where we are today. I can't wait for an amazing fair.

Sincerely,

Rylee Judson

SENIOR BAKING CONTEST

Section A LOT 1
Swedish Cardamom Bread

Ingredients

1/4 cup butter

1 cup milk

½ cup white sugar, granulated

2 ¼ teaspoons or one packet of active dry yeast

 $3\ {}^{1}\!\!/_{\!\!2}$ cups King Arthur Baking All-Purpose flour

½ teaspoon salt

1 1/4 teaspoon ground cardamom

½ tablespoon orange zest

1 egg beaten

2 teaspoons milk

1-2 tablespoon(s) Swedish Pearl sugar

Directions

Melt the butter in a microwave safe container that holds at least 2 cups. Add the milk and sugar, then heat to about 110F. Stir in the yeast. In a large mixing bowl, mix the flour, salt and cardamom. In a small bowl, beat the egg, then remove about 2 teaspoons in to a separate container. Mix this smaller portion of egg with 2 teaspoons milk to make an egg wash, then refrigerate until needed. Mix the larger portion of egg, and the orange zest into the milk mixture. Then add to the flour mixture. Beat with a dough hook or knead with your hands until the dough is smooth and elastic. Add additional flour or milk if needed to create a nice dough. Cover the bowl of dough with a damp dish cloth and let rise in a warm place until doubled about 1-1 ½ hours. When doubled in size, knead a few times, then divide the dough into thirds and make 3 15-inch long rolls of dough. On a parchment lined baking sheet, braid these together then tuck in the ends. Preheat the oven to 375F degrees. Let rise in a warm place until almost doubled, about 40 minutes. Take the reserved egg wash out of the fridge, then whisk briefly. Using a soft brush, brush egg wash lightly over the top and sides of the bread, then sprinkle with Swedish Pearl sugar. Bake at 375F degrees for about 20-30 minutes until the loaf is golden brown and sounds hollow when tapped.

Submit on a foil-covered cardboard no larger than one inch from the sides of the bread.

SMALL GASOLINE ENGINES

Class Sponsored by: The Fettig Family, Connecticut Scooter Pros, and Hebron Pizza RULES AND REGULATIONS

- 1. Read General Rules and Regulations.
- 2. All exhibitors entering a small engine project into the fair must submit a record book by 9:00 am, Friday morning of the fair.
- 3. All small engine exhibits and exhibitors must be pre-registered by Saturday, July 26, 2025 by 11:59 pm and be on the fairgrounds no later than 9 pm on Thursday of fair week.
- 4. All exhibitors must have exhibits on display for the entire time the fair is in session.
- All exhibitors entering a small engine project into the fair must be present at the time of showmanship judging at 9am Friday morning of the fair.
- All exhibitors must be in neat, appropriate, and presentable attire. (no shorts, tank tops, open-toed shoes, and loose clothing.)
- 7. Any lawn tractor being operated on fairgrounds must have a braking system, kill switch (within easy reach of driver and pit boss), a low throttle setting by either a dash lever or a foot pedal and a lawn tractor seat secured by bolts or welds.
- 8. Any exhibitor operating their lawn tractor on fairgrounds other than scheduled fair events, must have permission from the tractor steward, sit completely on the seat facing forward, and operate the tractor as directed by the tractor steward.
- All exhibitors will have a mandatory written knowledge test given by the presiding steward and will be taken on Thursday evening when exhibitors bring their projects in for display.
- 10. The Tolland County 4-H Fair Small Engine Lawn Tractor Pulling Event is limited to registered members of Tolland County 4-H.
- 11. Any 4-H member that intends to pull with their lawn tractor must fill out a **Tolland County Small Engine Project Verification Form**. Any tractor submitted for pulling that has previously competed in the Tolland County 4-H Fair Small Engine Lawn Tractor Pulling Event must have changes made other than general maintenance done by the 4-H member for the current 4-H year.
- 12. The purpose of this event is for each contestant to learn how to achieve a full pull and advance in the competition.
 - A full pull means that the tractor needs to make one continuous pull of 48" without stopping. Each contestant has 3 tries to make a full pull. The longest distance pulled within the 3 tries will be the distance recorded on the official score sheet.
 - A contestant's tractor that does not make a full pull is automatically eliminated from the competition.
 - The pulling judge has the final determination of a full pull. Contestants can only skip a weight class for unexpected repairs.

- 13. All work, repairs, and modifications done on pulling tractors must be done by the 4-H member, except for welding and grinding of parts by a qualified person. 4-H members can help other 4-H members, but anyone other than a 4-H member helping with work of any type, other than welding or grinding, will cause the exhibitor and tractor to be eliminated from the pulling event.
- 14. If there are only 2 contestants left, and there are repairs needed, a 15 minute repair time will be given, or they forfeit the pull.
- 15. If a contestant is to complete repairs and re-enter the weight class there will be no weight penalty assessed. If the contestant must entirely skip a weight class, a 300lb weight penalty will be assessed at the end of the pulling event.
- The only fuels allowed to be used in this event are pump Gasoline (82 to 93 octane only), or Diesel Fuel.
- 17. Each contestant has 3 tries to obtain a full pull within each weight class. Except for the hitch height adjustment, no other modifications can be done while the contestant is in the middle of his/her 3 tries within each weight class. The contestant can only adjust the hitch height once during the three tries for that weight class.
- 18. Modifications to a pulling tractor (adding weight to the tractor, letting air out of the tires to get better traction or any general repairs) can only be made if the tractor has made a full pull and is preparing for the next weight class. These modifications can only be made off the pulling pad between weight classes by the operator of the tractor.
- 19. Any lawn tractor competing that has a hitch that is higher than the centerline of the rear axle, must have wheelie bars. If the hitch is at or below the centerline of the rear axle it will be considered a factory stock hitch. The ends of the wheelie bars must extend a minimum of 4" from the outside edge of the rear tires and a maximum of 3" high off the ground to prevent tractors from flipping over backwards.
- All Contestants in this event must wear an approved helmet during the actual pulling of weight. (The helmet does not have to be worn while maneuvering the tractor into pulling position)
- 21. All tractors in this event must have a kill switch on the dash or a dead man kill switch (a tether going from kill switch to the contestant sitting on the tractor).
- 22. All tractors in the pulling event must have 3/8 inch forged hook attached to the hitch with the opening of the hook facing upwards. NO EXCEPTIONS. Any tractor without this type of hook will NOT be able to compete.
- 23. Any tractor operator in pulling mode that begins to dig holes without moving the sled will be asked to stop and reposition on the pulling pad. If the tractor, after 3 tries, cannot pull the sled of weight without digging holes, that tractor will be eliminated from the pulling event. All tractors pulling weight must be lined up straight with the sled, not in the direction of safety ropes on either side of the pulling pad. The pulling judge has the final determination of this rule.
- 24. Only 4 people are allowed on the Pulling Pad
 - the pulling judge
 - chain hooking operator/spotter
 - tape measurer
 - driver of the tractor
- 25. All tractors entering the pulling pad must be in the lowest throttle setting. The throttle setting can only be increased when the operator engages in pulling the weight on the pulling sled. Once the operator is told to stop, the engine must return to the lowest throttle setting.
- Once on the pulling pad and waiting to be hooked up to the pulling sled the tractor operator
 must have
 - his foot on the brake

- the tractor must be in neutral
- the operator's hands must be in the air with their eyes on the Pit Boss awaiting indication to start pulling
- at all times, the operator must keep his/her eyes on the spotter for instruction
- Before the tractor operator engages in pulling the weight on the pulling sled the tractor operator must indicate to the spotter where all emergency kill switches are located.
- 28. If anything (parts, weights, or straps) falls off a pulling tractor while attached to the weight sled, that pulling tractor is eliminated from the pulling event.
- 29. Pulling Configuration-
 - All stock tractors will start at 500lbs then the stock tractors only will continue until they can't pull any more weight
 - Starting weight for Modified 1100lbs
 - Starting weight for Super modified 1400lbs
 - Stock tractors still pulling at 1400lbs can continue in the pull at this weight until they are eliminated
 - Each Class will have a ribbon placement of 1st, 2nd, and 3rd place only

- 2. All animals and poultry entered at fairs and shows must be in good health and in proper physical condition and will be examined at the exhibition by the barn superintendent. Evidence of poor condition or infectious or contagious disease or failure to produce the necessary documents for health certification, vaccination or testing will result in ejection. The Connecticut Department of Agriculture Livestock Inspector's decision is final.
- 3. Health charts and proof of vaccination where applicable are the responsibility of the exhibitor.
- 4. Each barn superintendent will collect and hold the Health Certificates from each exhibitor. Animals not in compliance with the state regulations for shows and fairs will not be allowed. A complete list, containing the name of the exhibitor, address, animal ID (ear tag, tattoo, and leg band), breed and age of each animal, and the total head count will be made available to the State Livestock Inspector and forwarded to the Connecticut Dept. of Agriculture, Bureau of Regulation & Inspection by the fair superintendent. All animals and poultry present on the grounds should be identified on this list. Any animal that is rejected should be noted as such with a brief statement of reason. Rejected animals or poultry should be removed from the grounds as soon as possible. Any concerns about the health of any animal or bird should be reported to the State Livestock Inspector or the Fair Veterinarian immediately.
- 5. Isolate all exhibited animals and poultry upon their return to the farm from other animals and poultry for 3-4 weeks to reduce the risk of disease exposure and transmission. Call your local veterinarian if your animals or poultry become sick to help you with diagnosis and treatment.
- Contact the Bureau of Regulation and Inspection at 860-713-2504 if you have any questions.
